Navigation 2-Way Voice

Navigation

Improve on the accuracy and safety of your deliveries with turn-by-turn visual and audible directions. One touch navigation is possible with the address that is entered during dispatch order entry. Integrate with leading truck-specific navigation solutions as well as popular Android navigation products like Google navigation.

"In 200 Yards, Turn Left onto Stoneleaf Road"

2-Way Voice

- Push-To-Talk voice communications using Radio over IP (RoIP)
- Easy one touch communication for drivers
- Dynamic Talk Groups - Job, Plant, etc.
